

This is a test!

**NEGATIVE**  
IS THE **NEW**  
**POSITIVE**

Rapid antigen testing might be an answer to many current challenges!

- During **contagious** phase the aerosol virus particles travel through our airway system.
- While the host is contagious (and breathing through the nose) they will leave behind virus particles in that **distal part of the airway**.
- Collected samples can be screened on virus presence lateral-flow test with a printed reagent specific for **Covid-19**

# WHAT

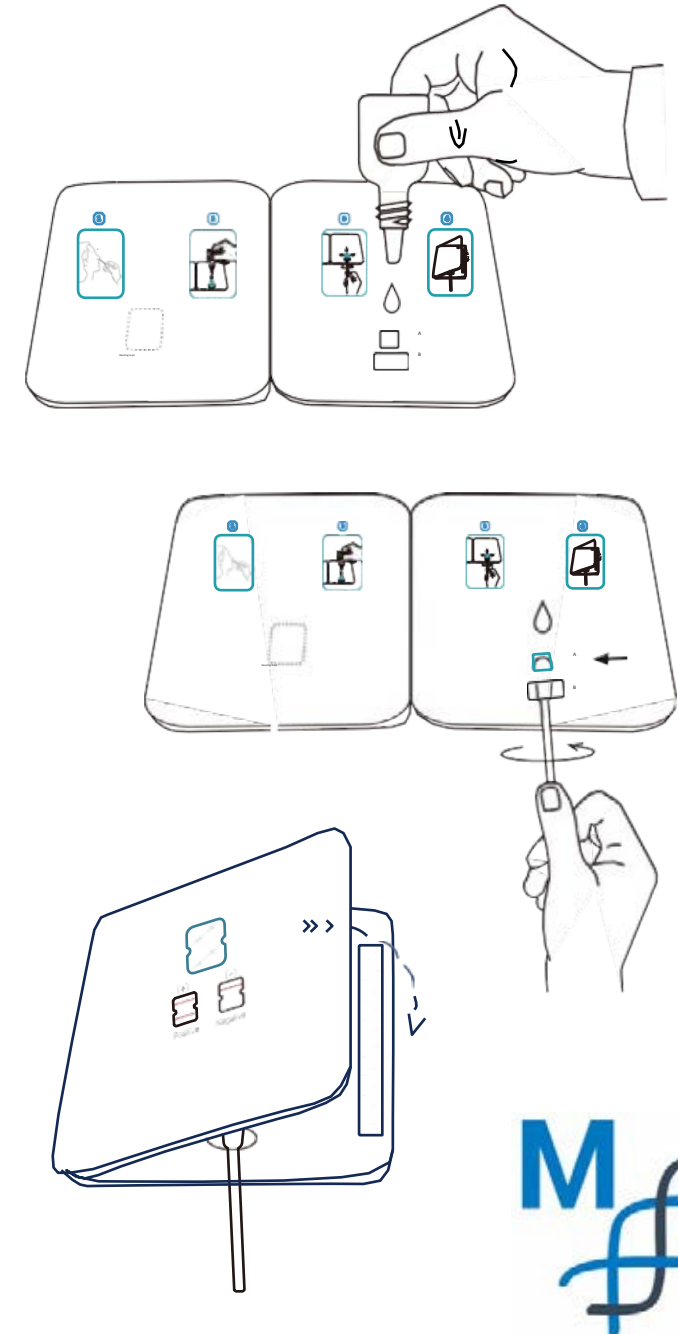

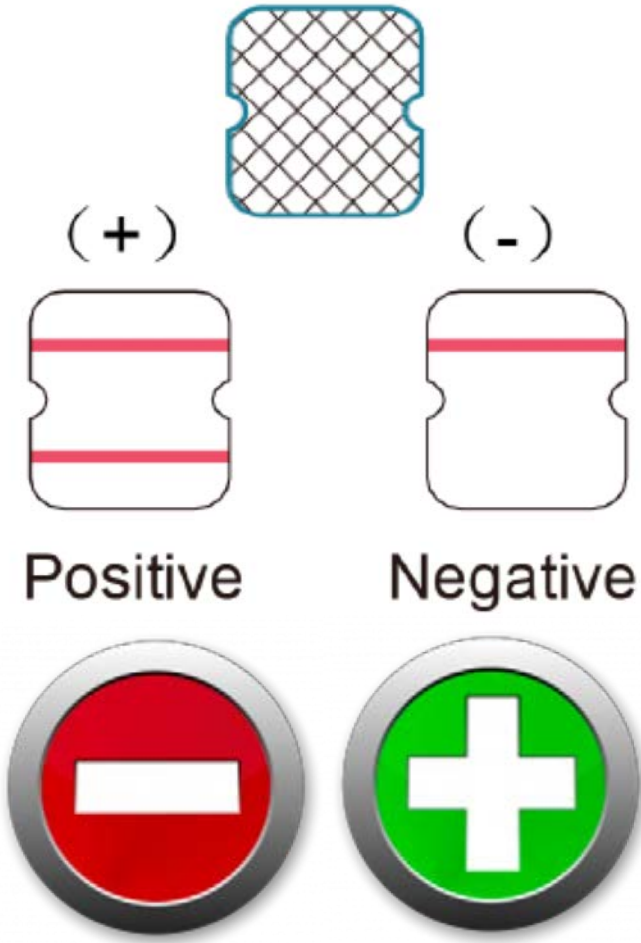

- 99% + probability that the person is NOT infected with Covid-19
- Test positive: exit and visit GP

**Simple to use**

**Convenient**

**Stable, with high accuracy**

**Cost-effective**

# WHERE

Events

GP/Hospital visits

Ambulances

Elderly Care visitation

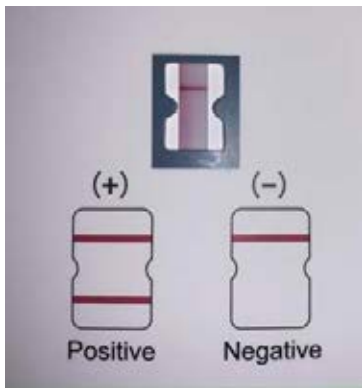

Corporate meetings

Pre-screening PCR-tests

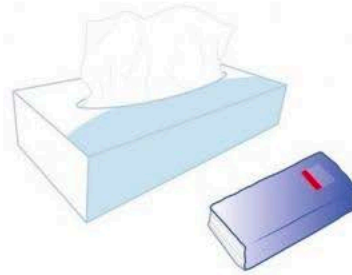

and more

- Result under 15 minutes
- No HCP staff needed
- Non-invasive
- Products stored and used at room temperature
- Negative result is green light

# QUESTION

*Lets meet again!*

# MEDEA MEDICAL

NEGATIVE IS THE NEW POSITIVE
